

FEATHER PICKER V-BELT

Performance Driven. Performance Proven.

Reduce downtime and maintenance costs with premium quality Timken® belts for poultry processing equipment.

The feather picking machine is a critical application in poultry processing plants. Downtime on this machine alone stops the entire process. The belts that operate in this harsh environment must be reliable. Timken Feather Picker belts are made of an advanced polymer and optimized tensile cord for improved wear resistance and long belt life. The unique double sided molded cog design is engineered for flexibility and enhanced grip in moist conditions. Timken Feather Picker belts resist steam and moisture better than competitive wrapped belt constructions.

FEATHER PICKER V-BELT

Timken Feather Picker belts are made of Ethylene Propylene Diene Monomer (EPDM). EPDM is durable, and resistant to heat, hardening and glazing. Timken Feather Picker belts offer superior flex and load carrying capacity, resist cracking and won't stretch.

Features/Advantages:

- Optimized high strength tensile cord
- Gripping power of raw edge sidewalls
- Superior flexing of precision molded cogs
- Durability of highly engineered polymer
- Resistant to heat, steam and moisture
- Resistant to wear, hardening and glazing
- Broad operating temperature range
 - -50°F to +250°F
- Proudly made in the USA

Markets:

- Food processing industry

Applications:

- Poultry processing

Sizes:

- AAX128FP
- AAX142FP
- AAX144FP
- AAX146FP
- AAX148FP
- AAX161FP
- AAX163FP
- AAX184FP
- BBX155FP
- BBX158FP
- BBX161FP
- BBX168FP
- BBX172FP
- BBX185FP
- BBX195FP
- Other sizes and constructions are available as made-to-order belts

Matched Set:

- Belts are sold in matched sets of 2
 - Never mix new and used belts on a drive
 - Never mix belts from different manufacturers
