Subject: PowerTwist Drive® Link Belting

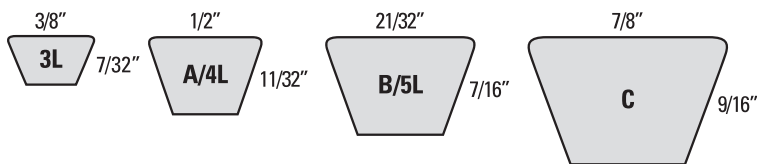

Timken Belts will no longer provide Thoro-Twist V-Belting. Effective immediately, Thoro-Twist will be replaced by a very similar product, PowerTwist Drive® Link Belting.

PowerTwist Drive is a perfect candidate for drives that have no take-up adjustment capability or for use as an emergency replacement belt. It can be assembled by hand and rolled onto the drive just like a bicycle chain. PowerTwist Drive link belting has the same cross-section dimensions as traditional rubber v-belts and can be installed on existing sheaves with no changes in setup.

Features and Benefits

- High performance polyurethane/polyester composite
- Reinforced with multiple plies of strong but flexible fabric
- Oil, chemical and heat resistant
- Industry standard horsepower ratings
- Fast and easy installation
- RoHS compliant

PowerTwist Drive is made in the USA and sold in 3L, A/4L, B/5L, and C cross sections in 30 meter rolls.

Part Number	Top Width (inches)	Length (feet)	Length (mm)
3LTWIST	3/8"	98 foot roll	30 meter roll
ATWIST	1/2"	98 foot roll	30 meter roll
BTWIST	21/32"	98 foot roll	30 meter roll
CTWIST	7/8"	98 foot roll	30 meter roll

Timken Belts is part of The Timken Company's growing portfolio of engineered bearings and power transmission products. A manufacturer of premium performance power transmission belts, Timken Belts' associates and products help keep industry in motion and the world more productive.
